

Publication general Information

AZCLE® from the State Bar of Arizona publishes comprehensive substantive law books. AZCLE® Books are professionally produced legal publications, written by highly respected Arizona lawyers and judges. The books, ranging in length from 130 to more than 1,200 pages, are reviewed for organization and substance by our staff and editorial review committee. Most major publications are professionally edited and indexed. Books are supplemented regularly.

The AZCLE® publishes books on Arizona law as a State Bar of Arizona member service. Unlike for-profit operations, the State Bar spends only a modest amount on packaging, marketing and "window dressing." Our emphasis is on substance, so we invest our resources in editing, cite checking and professionally indexing our books. The prices for AZCLE® books reflect our nonprofit philosophy. Although we do not share the cost advantages of national publishers who print and sell thousands of copies of a book, we try to keep our prices at a reasonable level through careful cost control procedures. We also rely in large part on volunteer authors and reviewers to donate their valuable time and expertise to help us serve you.

- **Delivery and Rush Service**
